BUILD A CUSTOM CHOPPER!

LEGO TECHNIC

A chopper is a motorcycle that has been modified, or 'chopped', to run low to the ground. They have an extended and inclined front-end, often with a seat rather than a saddle. Usually a chopper is stripped down to reduce weight, but this little beauty has been suped-up with the futuristic lines of a modern superbike!

Turn your Supercar into a Superbike using elements from LEGO® Technic set 8070!
